

## Total Loans

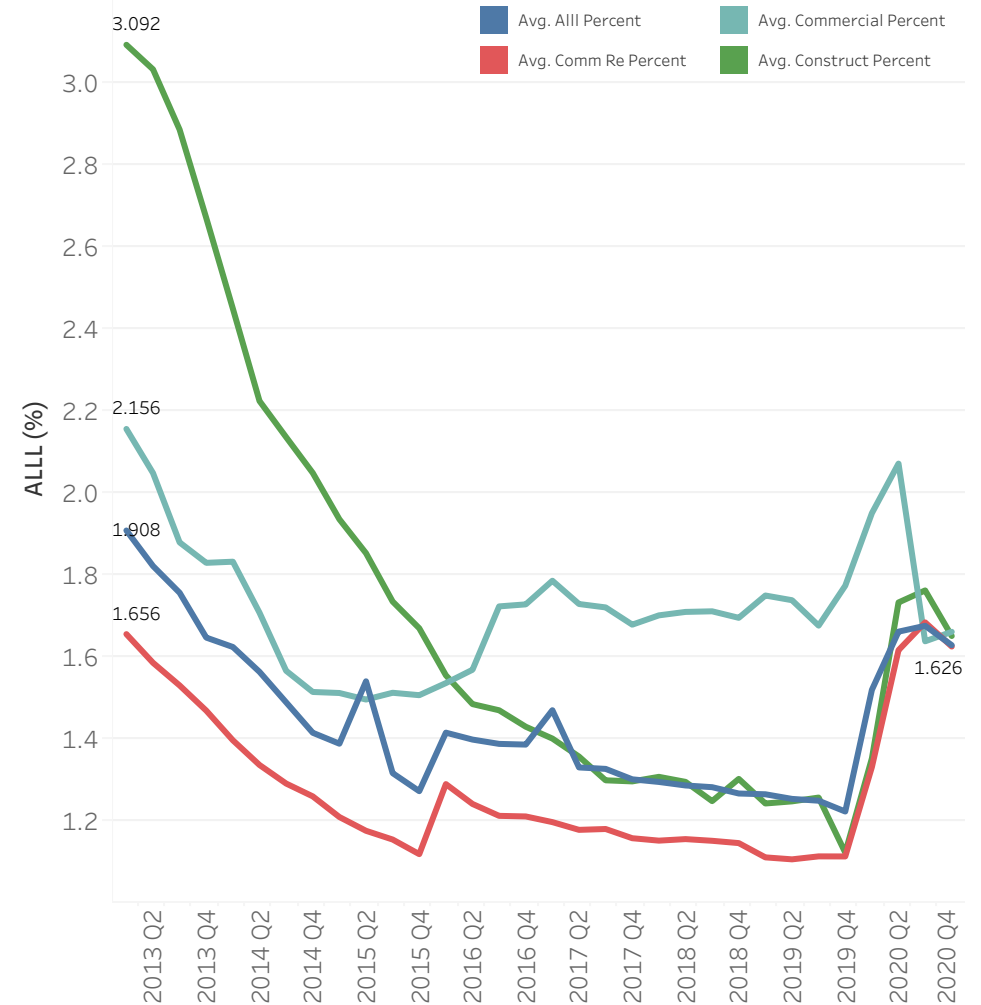

## Allowance for Loan Losses

Allowance for Loan Losses not reported for all US banks -- information displayed is from banks which have data available via FFIEC

## Allowance for Loan Losses (%) by Loan Type

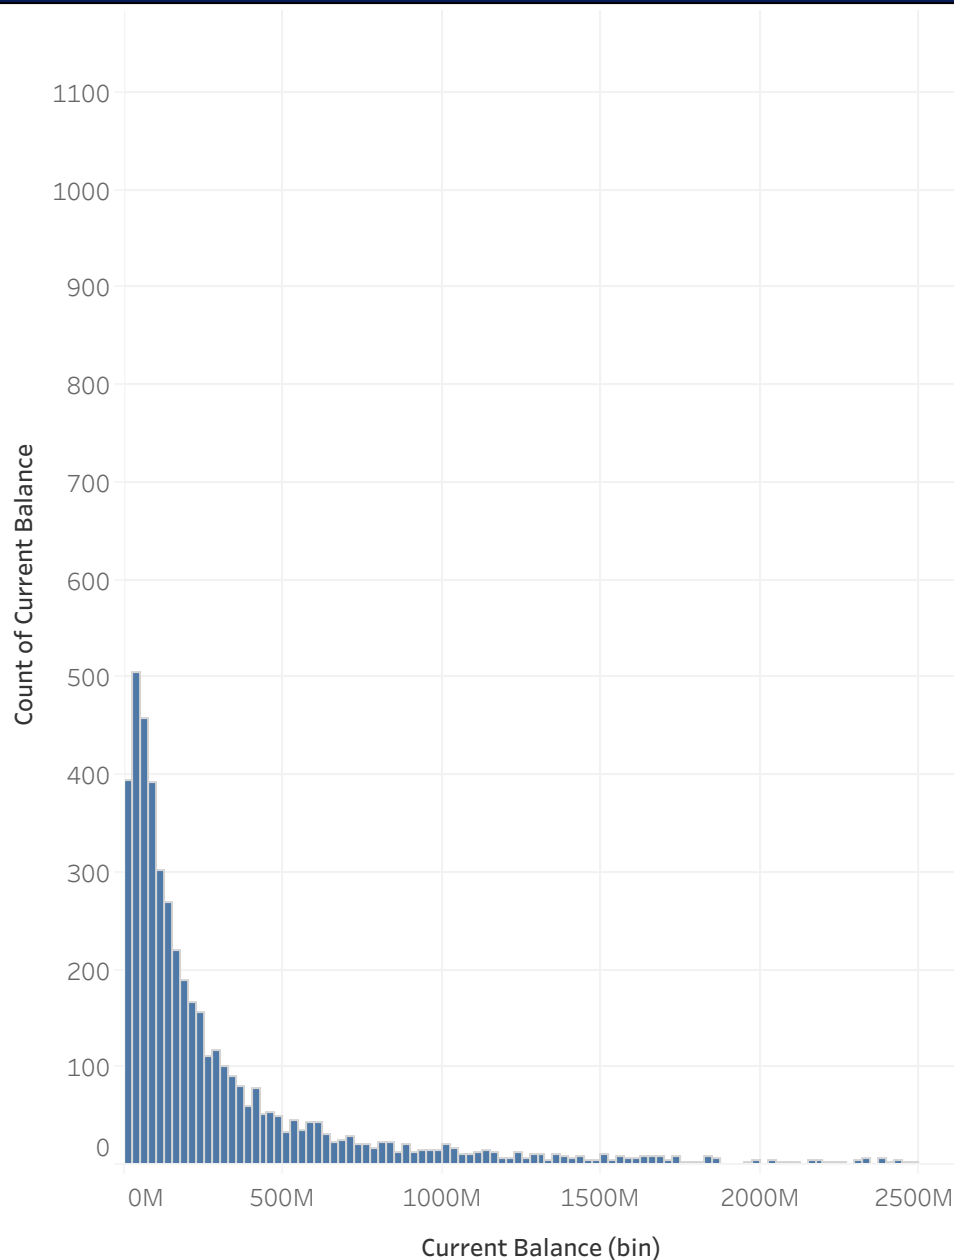

### Note from Schedule RI-C Instructions:

The Loan Portfolio categories in the above table represent general categories rather than the standardized loan categories defined in the Loan Data tab. Each institution has flexibility when applying allowance methodology.

### From the FDIC's Schedule RI-C Instructions:

"For example, one institution might include its loans secured by farmland in its allowance components for commercial real estate loans, but another institution might include its loans secured by farmland in its allowance components for commercial loans."
